

GAVRT

SPRING TRAINING 2020

Professional Development for Teachers

*Join us and put the
Goldstone Apple Valley Radio Telescope
into the hands of your students so they can observe space
phenomena with NASA/JPL and international space scientists*

*2-day Teacher Training on how students can use radio
astronomy to observe solar system, galactic, and
extra-galactic phenomena with GAVRT's 34-meter radio telescope*

*Q&A with professional radio astronomers and hands on training
with Juno Team members*

You and your students can see the universe with new eyes!
