

## **THE LEWIS CENTER FOR EDUCATIONAL RESEARCH SALUTES THE CLASS OF 2011!**

June is graduation month throughout America. No matter whether it is a kindergarten promotion such as the one pictured here, or an elementary, middle school or high school commencement, these magical moments signify that young people are ready to take the next steps in their personal journeys to excellence. At the Lewis Center for Educational Research in Apple Valley, CA, we are very proud of every child we teach at our Academy for Academic Excellence in Apple Valley and Norton Space and Aeronautics Academy in San Bernardino. We are especially pleased that each of our high school graduates will be attending college or entering military service. We salute our students and their teachers for this outstanding accomplishment. We also pledge to continue to inspire each of our students to reach for the stars, and to provide each of them with the cutting-edge education that will help them become the leaders of tomorrow!
