

## **THE LEWIS CENTER OBSERVES THE ANNIVERSARY OF THE 9/11 ATTACK ON AMERICA**

The Lewis Center for Educational Research, our teachers, students and parents respectfully observe the ninth anniversary of the unprovoked attack on the World Trade Center, the Pentagon and the American Spirit that cost thousands of lives on September 11, 2001. But although the perpetrators brought down the World Trade Center Towers and punched a giant hole in the Pentagon, they did not damage the American Spirit. In fact, America began fighting back immediately, as a brave group of Passengers on United Flight 93 fought the terrorists on their flight all the way to the ground, thwarting the terrorist plot to fly the plane into the White House. Our freedom is intact. Our resolve is as strong as ever. And we are vigilant about providing our young people with an opportunity to create their own American Dream. At the Lewis Center, we work every day to help our students develop mastery over their schoolwork and learn to be good citizens and patriotic Americans. They are our future leaders. They will carry our flag forward. We salute the courage of those who perished on 9/11 and those who have laid down their lives for freedom throughout our history. Because of them, we are still privileged to live in the land of the free and the home of the brave.
