### **Truckers visit students at Lewis Center**

On March 14, Devon Ades from the California Trucking Association, along with Jeff Sturch, presented a \$400 check to Mrs. Andreasen's second grade class at Lewis Center for Educational Research, for participating in its annual poster contest. Students studied the role of trucking in the distribution of goods before designing and submitting a poster. Driver, Randy Park, from Apex Bulk Commodities brought a truck and trailer for students to view and to ask questions about the trucking industry.

Students enjoyed a lively questions and answer period with Ms. Ades regarding the truck and how it works. The second grade students enjoyed the hands-on lesson of how important trucks are to our economy. For more information, call (760) 946-5414, ext. 202 or email [cthompson@lcer.org](mailto:cthompson@lcer.org).
